

Welcome to Kingsoft Office

Dear User,

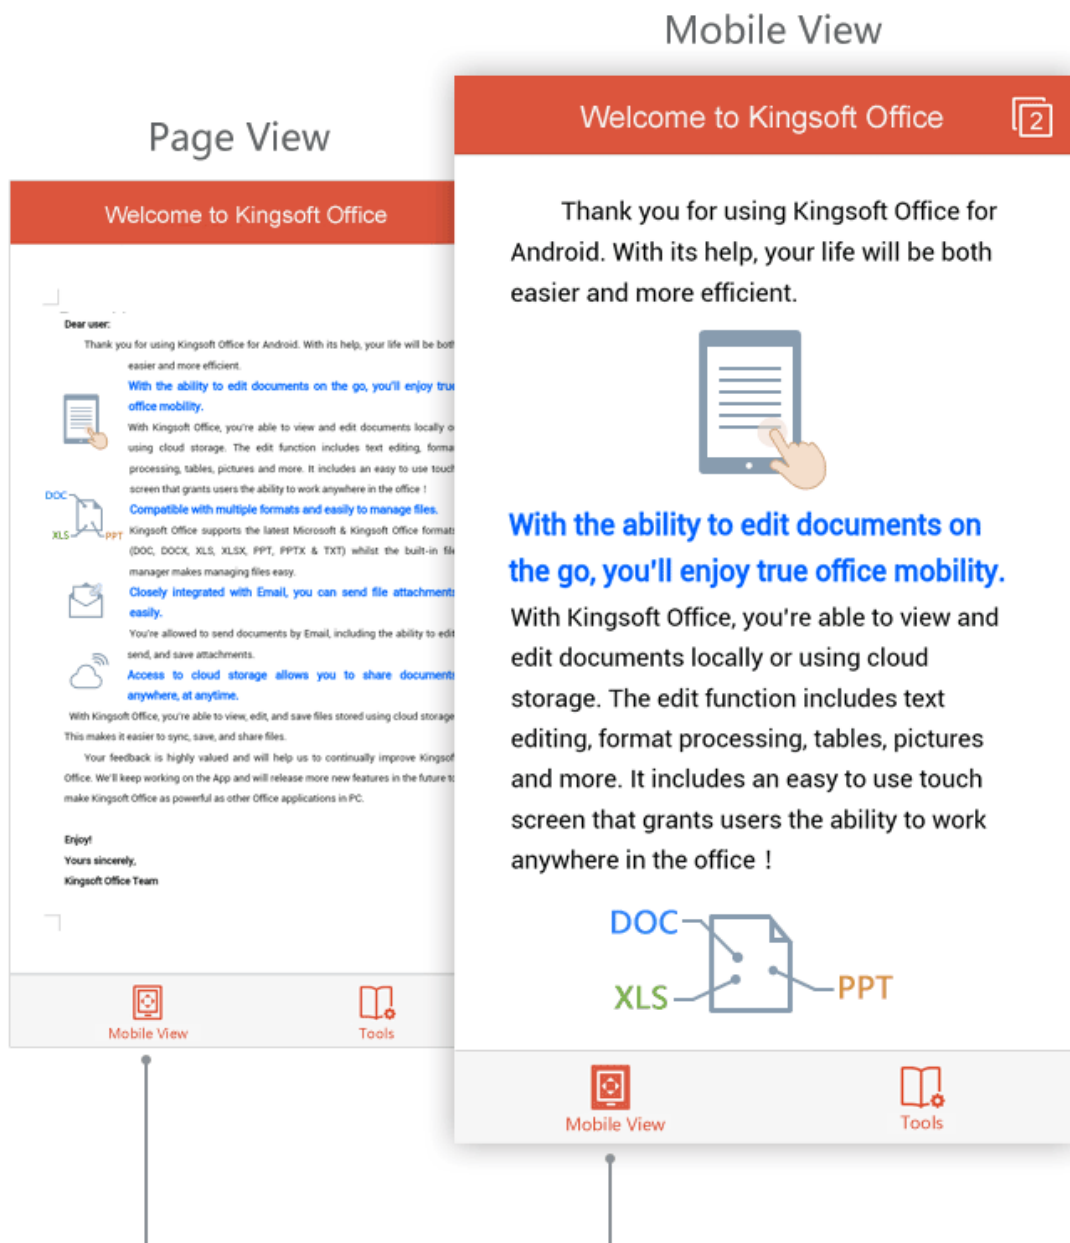

Thank you for choosing Kingsoft Office!

Kingsoft Office is the most powerful office software in the world. Everyday there are millions of people using it to complete their work, and we also believe that it will be the best choice for your mobile office.

The PDF component of Kingsoft Office you are using not only contains those common PDF reader features, but also has the following special features:

Mobile View

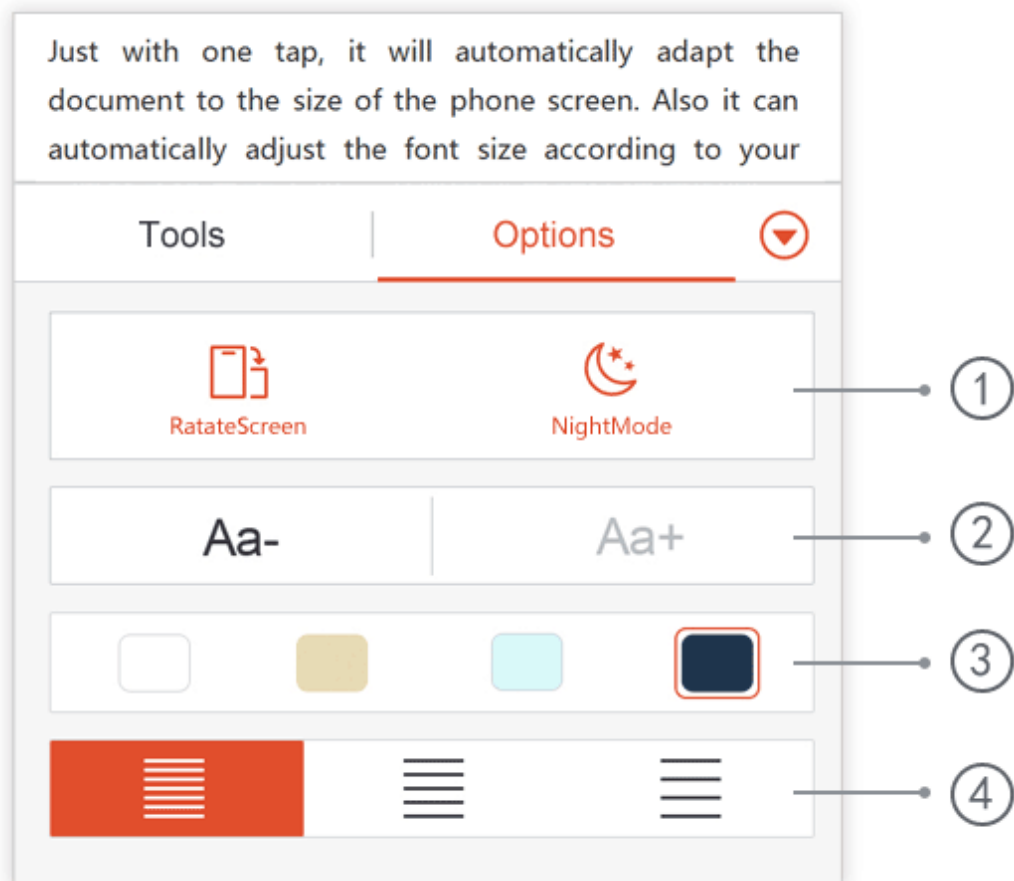

Just with one tap, it will automatically adapt the document to the size of the phone screen. Also it can automatically adjust the font size according to your phone, to bring you more comfortable and convenient reading experience.

Tap here to switch mode

Personalized Reading Service

In Kingsoft Office, you can set the individual reading service according to your needs. The service provides a wealth of reading features options, including Background Color, scrolling pages by volume keys, inserting bookmarks, and so on.

- ① Night Mode. Automatically adjust the screen brightness according to the night environment, to reduce the visual fatigue by creating a safe and comfortable atmosphere for the night reading.
- ② Font Size. You can tap this feature option to adjust the display of font size.
- ③ Reading Background. You can set the background according to your needs, making your reading more comfortable.
- ④ Line Spacing. It is easy to adjust the text line spacing by the feature option control.

With your care and support, Kingsoft Office will keep improving, to provide you with better service and make your work more convenient.

Kingsoft Office provides versions for Android, iOS, Windows and Linux platform. You can access to <http://www.ksosoft.com> for more information.

Enjoy!

Yours sincerely,

Kingsoft Office Team
